

## 5.2 Risk Plan Update

### Written By Fahim Arsad Nafis

- Database Connection Risk - (Risk 1 - High) If the database connection does not work completely, a short and temporary demo database can be used for the rest of the features which are depended on the database.
- Bookmark- (Risk 3 - Low) A reader can read multiple books at a time. Multiple books will require multiple bookmarks. Bookmark option should be available for all the books, not for only last read books.
