

Module 3: User Stories Assignment

Written By Fahim Arsad Nafis

1. As a developer, I want to ask questions, so that I can solve my problem.
2. As an expert, I want to reply to answers, so that the query can be resolved.
3. As a developer, I want to comment, so that I can clear out my queries.
4. As a developer, I want to browse other questions, so that I can find previous answers about the topic.
5. As a developer, I want to search for questions with keywords, so that I can find previous discussions on my query.
6. As a developer, I want to upvote or downvote, so that I can show my agreement or disagreement to the answer.
7. As a user, I want to see the answer sorted based on upvotes so that I can find the best possible answer at the very beginning.
8. As a developer, I want to open an account for me, so that I can upload my queries.
9. As a guest user, I want to browse questions, so that I can resolve my queries.
10. As a user, I want to upload my profile picture, so that I can be identified easily.
